

ENVIRONMENTAL POLICY

The Directors of Park Gate & Co Ltd consider that the protection of the environment in which we live and work is part of our company values and principles and consider it to be sound business practice. Consideration of the environment is one of our primary responsibilities and integral to the way in which we conduct our business.

The Park Gate Management is committed to;

- complying with Compliance Obligations including environmental legislation and regulations,
- preventing pollution
- focussing on making improvements where we can make a material difference, setting objectives and targets, and
- continuously improve the Company Management System to enhance environmental performance.

The Directors expect everyone who works for and on behalf of the company to apply the key principles to guide work activities, including;

- reduction of our consumption of energy and other resources and maximise the efficiency of those we use,
- reduction of the amount of waste going to landfill and to increase the amount that is sent for reuse / remanufacturing,
- advising our clients about possible options for using energy efficient equipment where technically possible,
- control of our vehicle fleet to reduce the amount of greenhouse gases produced,
- promotion of the remanufacturing and repair of motors.
